Lundin Mining Announces TSX Approval for a Normal Course Issuer Bid

Toronto, December 4, 2020 (TSX: LUN; Nasdaq Stockholm: LUMI) Lundin Mining Corporation (“Lundin Mining” or the “Company”) announces that the Toronto Stock Exchange (the “TSX”) has accepted the notice of Lundin Mining’s intention to renew its normal course issuer bid (the “NCIB”).

The Company intends to continue to utilize the NCIB at its discretion to make opportunistic purchases to create shareholder value and manage the number of outstanding common shares of the Company (the “Common Shares”).

This approval allows the Company to purchase up to 63,682,170 Common Shares, representing 10% of the 734,303,819 issued and outstanding Common Shares as of November 30, 2020, minus those Common Shares beneficially owned, or over which control or direction is exercised by the Company, the senior officers and directors of the Company and every shareholder who owns or exercises control or direction over more than 10% of the outstanding Common Shares, over a period of twelve months commencing on December 9, 2020. The NCIB will expire no later than December 8, 2021.

All purchases made pursuant to the NCIB will be made through the facilities of the TSX or other alternative Canadian trading systems. In accordance with TSX rules, any daily purchases (other than pursuant to a block purchase exemption) on the TSX under the NCIB are limited to a maximum of 524,753 Common Shares, which represents 25% of the average daily trading volume of 2,099,014 Common Shares on the TSX for the six months ended November 30, 2020. The price that Lundin Mining will pay for Common Shares in open market transactions will be the market price at the time of purchase.

In connection with the NCIB renewal, Lundin Mining entered into an automatic repurchase plan with its designated broker to allow for the repurchase of Common Shares at times when the Company ordinarily would not be active in the market due to its own internal trading blackout periods, insider trading rules or otherwise (any such period being an “Operating Period”). Before entering an Operating Period, the Company may, but is not required to, instruct the designated broker to make purchases under the NCIB in accordance with the terms of the plan. Purchases made pursuant to the plan, if any, will be made by the Company’s designated broker based upon the parameters prescribed by the TSX, applicable Canadian securities laws and the terms of the written agreement entered between the Company and its designated broker. Outside of these Operating Periods, Common Shares will be purchasable by Lundin Mining at its discretion under its NCIB.

The automatic repurchase plan will commence on the effective date of the NCIB and will terminate on the earliest of the date on which: (i) the purchase limit under the NCIB has been reached; (ii) the NCIB expires; and (iii) the Company terminates the automatic repurchase plan in accordance with its terms. The automatic repurchase plan constitutes an “automatic plan” for purposes of applicable Canadian securities legislation and the agreement governing the plan has been pre-cleared by the TSX.

The actual number of Common Shares that may be purchased and the timing of such purchases will be determined by the Company. Decisions regarding purchases will be based on market conditions, share price, best use of available cash, and other factors. Any Common Shares that are purchased under the NCIB will be cancelled.
